justice and power in the sociolegal studies asks what interdisciplinary work in the law and society tradition tells us about the relationship of law and justice as well as the way power operates in and through law the fundamental concepts of justice and power provide points of departure for leading scholars to explore the various domains of socio legal research as they note the explicitness of the engagement with issues of power and the relative silence about or indirectness in taking on questions of justice found in most law and society research they ask how engagement with issues of power and silence about justice constituted law and society as a research field caught between a desire to have political impact and at the same time to maintain its scientific respectability

under the rule of the current economic order social injustice is ever increasing issues such as poverty inhumane working conditions inadequate wages social insecurity and an unhealthy labor market continue to persist many states are also unable to produce policies capable of resolving these problems the characteristics of the capitalist system currently render it unable to provide social justice in fact on the contrary the system reinforces these injustices and prevents economic and social welfare from reaching the masses many muslim scholars have analyzed and indeed criticized this system for years this book argues that an alternative and more equitable theoretical and practical economical order can be developed within the framework of islamic principles on the other hand the experiences of societies under the rule of muslim governments do not always seem to hold great promise for an alternative understanding of social justice in addition the behaviors of muslim individuals within their economic lives are mostly shaped by the necessities of daily economic conditions rather than by the tenets of islam that stand with social justice until 1990s studies of islamic economics made connections between finance and the notion of social justice but work conducted more recently has neglected this issue it is therefore evident that the topic of social justice needs to be revisited in a more in depth manner filling an important gap in existing literature the book uniquely connects social justice and islamic finance and economics on this topic theory practice and key issues are presented simultaneously throughout this book which is based on the writings of a number of eminent scholars
